

Batu Indah Bertuah

Handicraft is one of supporting aspects for the daily activity of Sangiran people. Batu indah bertuah is considered as specialty of Sangiran that has been developed since 1985. The Industrial Affair of Sragen Regency supervises such activity. The center is located in Sangiran, Krikilan Village, Kalijambe District which is about 45 km from Sragen City. Such industry provides souvenirs for the visitors of Sangiran Museum. The design depicts Early

Man and other features related to it. The products can be found in various types so that domestic and foreign visitors are interested in having them as souvenirs.
