

### Buttons Made from Coconut Shell

**F**or many people, coconut shell might be useless. It is different in Sangiran where coconut shell brings a lot of advantage for the people like being used as handicraft. Most of Sangiran people are doing agriculture, however, some are having handicraft industry by using the coconut shell. They explore their creativity in making coconut shell into stuffs with selling points. They produce beautiful and interesting handicrafts like button, accessories, photo frame, lamp cap, key holder, spoon, and bowl. Even, the remains still can be used as charcoal in which its distribution reaches to many cities. The centre of such homemade industry is located in Sendang, Bukuran Village, Kalijambe District.
